## G&D IF IT'S KVM

Guntermann & Drunck is regarded as a leading manufacturer of digital and analogue KVM equipment used in control rooms in air traffic control, broadcast studios, on ships and to monitor industrial processes.

With a powerful portfolio consisting of KVM extenders, switches and matrix switches, G&D's users get real added value. G&D provides the broadest KVM product portfolio at the market. Even with different features, all G&D products are compatible and can be combined. Our KVM solutions optimise the application of IT equipment and improve the working conditions for humans and computers.

No matter where KVM devices are installed, there's always one main requirement - robust, reliable, user-friendly and easy to operate KVM systems that can be adapted to future requirements and grow with your demands.

By short lines of communication G&D is able to solve challenging requirements and tailor systems to our customers' needs. We keep direct contact to our customers and are personally available. We are proactive and always keep an eye on the trends in the industry. Functionalities required by our customers are quickly implemented into our products. Our success can only be measured with our customers' satisfaction.

Trust in G&D for your optimal KVM solution.

The MultiPower series serves as the central power source of G&D devices that require an external power pack (12V - for example DVI-CPU or DVI-Extender-F).

With the MultiPower series, you can operate and supply 12V up to 12 different devices - depends on the variant. Connect the device you want to operate to one of the available Mini-DIN4 sockets.

The web application Config Panel provides a graphical user interface to monitor the central power supply (only NT variants)

The Multipower are functional and a space-saving solution for applications as in a server room and computer rack.

## Features

- Central power supply for up to twelve devices, which require an external power pack
- Particularly suitable to save space in racks or server rooms, e.g. for the power supply of several DVI-CPU's
- Two internal power packs ensure a redundant power supply
- Several LEDs on the back panel show the device's operating status and the load of all switched on devices
- Updates are carried out via service port
- Display/monitoring capabilities via network
- Query relay contacts to monitor integrated power packs

## Variants

- **MultiPower-12:** up to twelve output interfaces (depends on the device) supply G&D devices with 12V and max. 600mA.
- **MultiPower-12-NT:** up to twelve output interfaces (depends on the device) supply G&D devices with 12V and max. 800mA ConfigPanel integration with additional monitoring capabilities.
- **MultiPower-6:** up to six output interfaces (depends on the device) supply G&D devices with 12V and max. 1.2A.
- **MultiPower-6-NT:** up to six output interfaces (depends on the device) supply G&D devices with 12V and max. 1.6A ConfigPanel integration with additional monitoring capabilities.
- **MultiPower-2:** two output interfaces (depends on the device) supply G&D devices with 12V and max. 4A.

## Installation

The MultiPower enables you to operate and supply 12V (max. 600 mA) up to 12 different devices.

Connect the device you want to operate to one of the available Mini-DIN4 sockets. The MultiPower receives power from one or two IEC plugs.

## Expansion

There are no expansions available for this product.

## MultiPower-2

MultiPower-2-24V rear view

MultiPower-2-24V front view

Technical data	MultiPower-2-24V
<b>Power connection for external devices</b>	
Interface	2 × Mini-DIN 4 socket
Voltage	12 VDC each
Current	4.0 A each
<b>Power supply</b>	
Type	External power pack
Connector	3-pin Phoenix connector
Voltage	24V DC
Power input	5.0 A
<b>Housing</b>	
Material	Anodised aluminium
Dimensions (W × H × D)	105 mm × 46 mm × 104 mm
Weight	360 g
<b>Operational environment</b>	
Temperature	+5 to +45 °C
Air humidity	< 80%, non-condensing
Conformity	CE, RoHS

## MultiPower-6 & MultiPower-6-NT

MultiPower-6 rear view

MultiPower-6 front view

Technical data	MultiPower-6	MultiPower-6-NT
<b>Power connection for external devices</b>		
Interface	6 × Mini-DIN 4 socket	
Voltage	12 VDC each	
Current	1.2A each	1.6A each
<b>Main power supply</b>		
Type	Internal power pack	
Connector	1 × IEC plug (IEC-320 C14)	
Power consumption	100 - 240 VAC/60 - 50Hz; 1,2 - 0,5 A	100 - 240 VAC/60 - 50Hz; 1,4 - 0,6 A
<b>Redundant power supply</b>		
Type	Internal power pack	
Connector	1 × IEC plug (IEC-320 C14)	
Power consumption	100 - 240 VAC/60 - 50Hz; 1,2 - 0,5 A	100 - 240 VAC/60 - 50Hz; 1,4 - 0,6 A
<b>Other interfaces</b>		
Network	-	1 × RJ 45 socket
Service	-	1 × Mini-USB socket (type B)
<b>Housing</b>		
Material	Anodised aluminium	
Dimensions (W × H × D)	19" × 1 U × 154.5 mm	
Weight	1860 g	approx. 1900 g
<b>Operational environment</b>		
Temperature	+5 to +40 °C	
Air humidity	< 80%, non-condensing	
Conformity	CE, RoHS	

## MultiPower-12 & MultiPower-12-NT
